## Mission Accomplished: New Furnace Start Up Successful.

It's always exciting to see a project come to fruition, especially one as ambitious as the addition of SDI LaFarga COPPERWORKS' new furnace. After receiving project approval in October 2019, we began aggressively working to meet our goal of a September 2020 completion. We achieved that goal and have begun producing our new high-quality Elemental™ Copper Rod and Wire (ETP) product.

We're currently conducting over a dozen trials, with more being scheduled every week. With each trial, we collaborate with customers and form multi-layered relationships with their production and quality teams.

SDI LaFarga COPPERWORKS is proud to be the only company in the U.S. to offer both Infinity™ and Elemental™ Copper Rod and Wire. We achieved this distinction through our collaborative culture and our team's dedicated, can-do spirit.

Please reach out to schedule a trial of our new ETP product. Our team is ready to help!

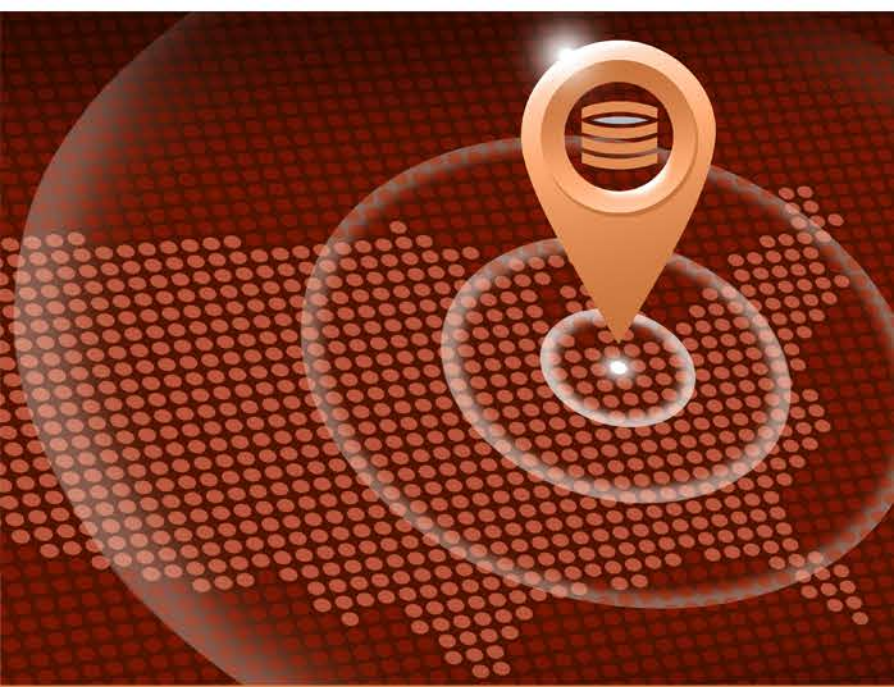

**Kurt Breischafft** — President

## You Asked for More. We Delivered.

As an innovator and leader in copper rod and wire, SDI LaFarga COPPERWORKS™ is about providing more choices to our customers. By recently adding our new Elemental™ Copper Rod and Wire product with our existing Infinity™ Copper Rod and Wire, we're now delivering more choices than ever before. Add in our wire drawing capabilities, and SDI LaFarga is your one source for high-quality copper rod and wire.

## Centrally Located to Better Serve You.

Part of making copper work for our customers is being strategically located. Our Midwest location means we can provide our customers high-quality copper rod and wire faster, which means they can maintain leaner inventories. It's one of the many advantages we provide that makes a difference in our customers' operations.

That's the COPPERWORKS Experience!
